THE COMMUNE IN PARIS.

Socialist Orators Organize and Encourage an Uprising.

Barricades Erected and Soldiers Ordered to Use Force.

The Sixth Time in Nineteenth Upon the Ground of Fear of Their Ends—Authority Supposed Himself to Be Dealing with the Progress of Affairs in Detail—The Particular Characteristics Not Typical of the Rioters of Communes—Other Foreign Items.

PARIS, June 5.—The Council of Ministers, the so-Commune who arrested Boulanger, while addressing a body of artillery Sunday, met yesterday. Fifty thousand persons gathered in the streets adjacent to the scene of the assault, and repeatedly hooted the men in the conference room which contained the ministers. The other troops belonging to the Paris garrison were held within their barracks in readiness for any emergency. Traffic in the streets through which the troops passed was suspended and the shops were closed.

Prince Edmond proceeded to Paris in front of the horse bearing the remains. They were followed by the Chamber of Deputies, who were met at the station by Brisson, President of the Chamber of Deputies, and by Bourgeois, Minister of Foreign Affairs. The procession started at 11 o'clock. The Prince, accompanied by Brisson, Bourgeois, and Marcère, members of the Cabinet of 1877, and M. Chanzy and Lucien Brun, members of the Senate, a brigade of gallant horsemen and gendarmes, headed the procession. Large bodies of troops and gendarmes lined the route. The streets and boulevards were densely packed with spectators, who cheered the Prince as he passed. The weather along the route was fine. Flags and bunting were displayed from the windows and housetops. Even the Prince's flag was noticed. A number of socialist orators addressed the crowds, but their efforts to excite disorder were unsuccessful, as the people were in a loyal mood. The procession reached the Arch of Triumph at 1 o'clock. A salute of 101 guns was fired. The Prince, accompanied by the Ministers and Senators, then passed through the Arch and descended into the Champs Elysees, where a grand review was held. The troops marched past the Prince, who had taken up a position in front of the Arch. The spectators made a display of enthusiasm as the troops passed. The Prince, accompanied by his staff, then rode to the Elysee Palace, where a luncheon was served. Many distinguished persons were present, including the Ministers and their wives. The police arrangements before the ceremony attracted a great deal of attention

THE STATE FAIR ELIMINATION.

Plans for Opening Wide Every Another Year Under Its Charter.

The Secretary of the board of the State Fair Commissioners has issued a call for a meeting of the board at the Grand Pacific Hotel on Thursday next, at which time the question of opening the fair every other year, instead of annually, as at present, will be considered. The meeting will be attended by Governor Fifer, Judge Bradley, John Barry and Clerk Bailey, who represented the people and Lyman Bolton the commissioners.

The first move was made at Springfield Saturday, when a petition was presented to the board of commissioners of the State Fair, asking that the fair be held every other year instead of annually, as at present. The petition was signed by the officers of the Illinois Agricultural Association, which controls the fair, and by a number of prominent citizens of Springfield. The petition was referred to the board with instructions to report at the next meeting, which will be held this week. The petitioners claim that the fair has been a success financially, but that the interest in it has not been sufficient to warrant the holding of it annually. ANOTHER CABLE DELAY.

A Half-Hour Wrangle in the Board and Blocks the Road.

Police Inspector on the Part of the Directors in Forcing a Grip Gripman Off to the Bottom of the Whole Trouble—A Lively Time with Chief Vinnig of the Passengers and Directors Out of Cash.

Another breakdown and consequent delay of cars on long suspense on the North Side, while road yesterday afternoon. While the machinery of a grip car was being dug out of the street on Clark street one long string of North Siders were lost in what a couple of hours to get home, and to make matters worse for the rest of the journey it was with the most extreme to have. Late in the afternoon, for some reason or other, probably because of the difficulty grippers have in getting accustomed cars through the "curves," were taken off the Clark street grip and the latter ran clear without any of the same cars stranded. The Clark street cars, therefore, were stopped in front. This successful change inconvenienced many who were around the loop waiting for cars, people being packed in Clark and Washington streets as of old. It also seemingly reduced the speed of the cable cars.

Among the many and trivial reasons which have been given for the abandonment of the street car conference one which I thought especially amusing to myself was that which was published. "I will not say why the whole concern is a failure," said the party, who is said qualities to talk on such matters. "The road is both altogether too cheaply built on the Lincoln Avenue and North Side and South Side roads. The cable machinery on a steep car carrying and the other terrible dirty steam dust every twenty feet. Cheats for the losses on the cables, or the steep curves, or the inconvenience of the cable cars, to be sure, were never given as a reason for the abandonment of the scheme. Fares were to be raised to five cents, and the cable cars were to be run at a speed of ten miles an hour, and were to be run at a speed of ten miles an hour, and were to be run at a speed of ten miles an hour.

The quick raising, the Royal Baking Powder is superior to all other leavening agents. It is absolutely pure and wholesome and of the highest leavening power. It is always uniform in strength and quality and never fails to make light, sweet, and palatable and nutritive food. Prof. R. A. Witt, U. S. Government Chemist, after examining officially the principal baking powders of the country, reported:

"The Royal Baking Powder is absolutely pure, for I have as found it in many tests made both for that company and the United States Government.

"Because of the facilities that company have for obtaining perfectly pure cream of tartar, and the other reasons dependent upon the proper proportions of the ingredients, and the method of its preparation, the Royal Baking Powder is undoubtedly the purest and most reliable baking powder offered to the public.

The most unique and interesting feature of the day's proceedings was the address of Prof. Charles Whitman, of the University of Wisconsin, on "Here Was Hi and Lo Has Gone." The address was delivered in the form of a story, and was full of humor and pathos. The story was that of a young man who went to the city and was lost in the crowd.
